## What's Vigo Ship Repair?

Vigo Ship Repair is a group of shipbuilding and related services companies that promote their repair services to ships at an international level with the support of Vigo Port and the rest of the port community.

Experience, size and specialization in the sector, together with the natural conditions of the port and its location in the Northwest of the Iberian Peninsula, makes this group an unique and different offer.

Apart from these advantages, Vigo offers a minimum time of deviation, 24/7 working days and port facilities of all kinds, as well as potential charges of output in the range of other ports nearby.

C/ Pontevedra, Nº4, 3º

36201 Vigo
